Here's what I sent to Sean. I just sent you what Alisha and Nick Conger concurred on for his follow up questions as to whether the investigators were armed and whether planes were involved. I hope this doesn't get weird.

Subject: Statement

Last week members of the Alaska Environmental Crimes Task Force conducted field investigations of placer mining operations in the Fortymile National Wild and Scenic River area. These field investigations were conducted by law enforcement officers from federal and state agencies due to suspected criminal conduct involving violations of state and federal water pollution laws.
